

SDG 3 : ENSURE HEALTHY LIVES AND PROMOTE WELL-BEING FOR ALL AT ALL AGES

3 GOOD HEALTH AND WELL-BEING

KEY ISSUES AND OBJECTIVES TO WHICH LEGRAND CONTRIBUTES

OCCUPATIONAL HEALTH AND SAFETY

3.4 By 2030, reduce by one third premature mortality from non-communicable diseases through prevention and treatment and promote mental health and well-being

3.5 Strengthen the prevention and treatment of substance abuse, including narcotic drug abuse and harmful use of alcohol

3.6 By 2020, halve the number of global deaths and injuries from road traffic accidents

3.8 Achieve universal health coverage, including financial risk protection, access to quality essential health-care services and access to safe, effective, quality and affordable essential medicines and vaccines for all

3.9 By 2030, substantially reduce the number of deaths and illnesses from hazardous chemicals and air, water and soil pollution and contamination

ACCESS TO MEDECINES

ACCESS TO QUALITY ESSENTIAL HEALTH CARE SERVICES

Legrand takes action to prevent illness for its stakeholders. The prevention charter is applied across all sites, supported by the Legrand Way Health & Safety scheme and well-being solutions for employees. These include telemedicine centres in India, a mental health preservation programme in Hungary and access to gyms and coaches in Brazil.

Every year, Legrand teams organize awareness-raising days on various health topics. Tobacco, alcohol, road safety and mental health are the focus of recurring campaigns, as in Peru, where the fight against smoking is the order of the day every May 31.

Legrand has deployed the Serenity On policy for all its employees, throughout the world, to ensure that everyone has access to the same level of social protection. This program focuses on parenthood, health, disability and death by offering minimum international standards for access to social coverage. Since 2022, the programme has also covered physical and mental well-being.

Legrand excludes from its products substances that are candidates for authorisation under REACH whenever an alternative solution exists. Legrand also aims to reduce pollution by limiting emissions of volatile organic compounds. The Best Environmental Excellence prize was awarded to Legrand India for its commitments.
