GOVERNANCE CENTRAL TO ALL ISSUES 18
INTEGRATED PERFORMANCE 20
2018: STRONG GROWTH IN MAIN INDICATORS AND TARGETS FULLY MET

Excluding the exchange-rate effect, Group sales were up +13% in 2018, the highest rise since 2006. This healthy performance was on the one hand driven by organic growth in sales of +4.9%, coming from successful new product launches and commercial initiatives, and on the other hand from the effect of the increased scope of consolidation at +7.8%, reflecting a very active external growth strategy.

Adjusted operating profit increased by +9.7% to more than €1.2 billion and adjusted operating margin before acquisitions reached 20.2% of sales.

2018 also marked the final year for the 2014-2018 CSR roadmap, whose achievement rate reached 122%. The Group more than exceeded its ambitions in some areas, for example as regards reducing energy intensity and improving health and safety at work.

As a result, Legrand fully met its targets in 2018. We achieved a very strong overall performance, reflecting our ability to create value for all our stakeholders over the long term through a clear strategy, a robust business model and our highly committed teams.
In 2018, Legrand undertook many initiatives aimed at fueling its development in keeping with the solid fundamentals that have made it successful.

A VALUE-CREATING BUSINESS MODEL

Legrand will continue to develop, driven in particular by the technological and social changes that are having a lasting and profound impact on buildings, such as digitalization, longer life expectancy, urbanization, efforts to control energy consumption, fiber optics and voice control. Building on this, Legrand will maintain its value-creating strategy, driven by:

- organic and external growth, and innovation to accelerate its development,
- optimized performance, particularly through industrial initiatives,
- digital transformation of its offering, in order to increase the value in use of its products, and of its organization,
- a new CSR roadmap to define and monitor its extra-financial performance targets in connection with the UN’s Sustainable Development Goals, around three focal areas: Business Ecosystem, People and Environment.

This clear strategy is underpinned by the Group’s robust market positions and the fundamentals that have made its success: demanding governance, acknowledged financial discipline, the accountability and commitment of its teams, simplicity in dealings with others, rapid decision-making and strong values. More than ever, the strategy also consists of having customer-centric thoughts, processes and decisions!

INTEGRATED STRATEGY AND PERFORMANCE

I believe that we must consider the Group’s overall performance in terms of the expectations of all stakeholders: its customers and workforce obviously, but also its suppliers, shareholders, public authorities and the communities in which the Group operates, while also making sure to respect natural resources and the environment.

This is why, for more than 10 years now, we have adopted sustainability targets through multi-year roadmaps.

This is also why we made a materiality survey, which allows us to understand what matters to each of our stakeholders. Likewise, performance can only be sustainable if major risks are correctly identified and mitigated, which we strive to do every day through our risk management approach.

Finally, this integrated report charts the Group’s ability to make the most of opportunities for value creation in a sustainable, responsible and profitable manner. It is based on the framework defined by the International Integrated Reporting Council (IIRC), and it complements our other publications.

Benoît Coquart,
CEO
LEGRAND:
THE GLOBAL SPECIALIST IN ELECTRICAL AND DIGITAL BUILDING INFRASTRUCTURE

A market driven by megatrends

Legrand is a global player in electrical and digital infrastructure for residential, tertiary and industrial buildings. Its accessible market is worth more than €100 billion.

Social and technological megatrends, and those relating to customer habits, offer the Group long-term growth prospects. Indeed, buildings lie at the heart of these developments.

SOCIAL MEGATRENDS
- Growing and ageing populations
- Rise of the middle class in new economies
- Climate change and energy-saving
- Health and wellbeing
- Growing urbanization

CUSTOMER-RELATED MEGATRENDS
- Mobility
- Connected living
- E-commerce
- Internet of Me
- Collaborative and remote working
- Personal data protection

TECHNOLOGICAL MEGATRENDS
- Wireless
- Voice control
- Sensors
- Fiber optics
- Big Data and blockchain
- Artificial intelligence

New applications and innovating services
Connected home
High-performance infrastructure
Intelligent buildings
Smart cities
Industry 4.0

1/8 of the world’s population has no access to energy*

The number of people aged over 80 is expected to triple between now and 2050**
** Source: United Nations Organization.

Buildings are responsible for 35% of energy consumption*
Present across all parts of the economic chain

The depth of Legrand’s offering, geared towards low-voltage applications in tertiary, residential and industrial buildings, makes the Group a global benchmark for all the players in its economic chain:

- **distributors**, to which Legrand sells its products,
- **electrical contractors**, who install Legrand’s solutions in buildings,
- **product specifiers** (architects and engineering firms), which recommend the Group’s solutions,
- **end-users** (individuals, companies and building managers).

**AN ACCESSIBLE MARKET WORTH OVER €100 BILLION, DRIVEN BY MEGATRENDS**
**A broad product range**

Legrand offers more than 300,000 product lines.

**An organization that supports the Group’s strategy and customers**

The Group’s organizational structure is based on **two distinct roles:**

- **The Front Office** is organized by country and consists of sales (in a broad sense) and operational marketing, aimed at meeting the specific needs of each market.
- **The Back Office** brings together industrial activities (innovation, R&D, production, purchasing and supply chain) with strategy-related activities and general administration, centralized at the Group level.
Global presence

Legrand’s products are sold under more than 70 brands and across close to 180 countries. The Group has sales and manufacturing operations in nearly 90 countries. Almost 85% of its sales come from outside France.

2018 SALES

BY GEOGRAPHICAL REGION

- **NORTH AND CENTRAL AMERICA**: 36.3%
- **EUROPE**: 41.1%
- **REST OF THE WORLD**: 22.6%

2018 SALES

BY END-MARKET

- **TERTIARY**: 55%
- **RESIDENTIAL**: 40%
- **INDUSTRIAL**: 5%
## BUSINESS MODEL

PROFITABLE, SUSTAINABLE, VALUE-CREATING GROWTH

2018 Data

| HUMAN CAPITAL | • More than **38,000** people  
|               | • Almost **2,400** people working in R&D in more than 20 countries  
|               | • Loyal and committed teams |
| INDUSTRIAL CAPITAL | • More than **130** manufacturing and logistics sites in 31 countries  
|                   | • 90% of sites ISO 9001-certified  
|                   | • 90% of sites ISO 14001-certified |
| FINANCIAL CAPITAL | • Solid balance sheet structure  
|                 | • Net debt equal to **1.7x** EBITDA  
|                 | • Investment-grade credit rating |
| INTELLECTUAL CAPITAL | • About **3,700** patents  
|                     | • More than **70** trademarks  
|                     | • More than **300,000** product references |
| SOCIAL CAPITAL | • 60% of purchases from suppliers that embrace Global Compact principles

 STRATEGY AND GROWTH DRIVERS

2 GROWTH DRIVERS:
ORGANIC GROWTH AND ACQUISITIONS

Organic growth

Organic growth is driven by innovation, through regular new product launches and ongoing sales and marketing initiatives. Legrand also establishes technological partnerships – for example with CEA Tech, universities and other industrial players – and commercial partnerships, such as the collaboration with Lumileds to speed up adoption of dimmable LED lighting in the United States.

EXAMPLES OF NEW PRODUCTS IN 2018:

• User interfaces: dooxie in France, Living Now in Italy, Yiyuan in China, and connected products (Céliane with Netatmo in France, Valena with Netatmo in Greece and Smart lighting control in the United States)
• Automation for tertiary buildings: digital control interface for hotel rooms
• Protection: DX3 and DMX circuit-breakers, Practibox S cabinets and XL3 power enclosures
• Security systems: Galaxy connected security lighting
• Lighting management: Human Centric Lighting solutions
• Audio/video: app-controlled and Alexa™-interoperable Nuvo player audio systems, Milestone display mounts
• Intelligent UPS Systems
• Data: Infinium fiber enclosures for datacenters
• Logix universal modular floor boxes

FOCUS ON CONNECTED OBJECTS

The development of the Internet of Things is a major development for Legrand. The Group has decided to step up its investments in this area.

• Innovation: in 2015, Legrand launched the Eliot program, which aimed at doubling the number of connected product families and achieving double-digit average annual total sales growth for connected products by 2020. Those targets were met as early as 2018.
• Partnerships: the Works with Legrand program enables third parties to connect to the Group’s solutions in order to offer new services and functions.
Combined with our IoT expertise, the acquisition of Netatmo, a leading French smart home company, will enable us speed up development of high value in use connected products

Benoît Coquart

External growth:
A bolt-on acquisitions strategy

Legrand’s targeted acquisitions strategy focuses on small- and medium-sized companies, referred to as bolt-on acquisitions, that complement the Group’s existing activities, strengthen its positions and expand its accessible market year after year.

The Group has made 170 acquisitions since 1954 and invested an average of €382 million per year over the last 10 years.

In 2018, Legrand acquired more specifically seven companies:

- **Netatmo**, a leading French producer of connected objects for the home
- **Debflex**, a French frontrunner in electrical equipment for DIY (Do-It-Yourself) activities
- **Kenall**, the American leader in lighting solutions dedicated to specialized applications and to critical non-residential environments
- **Shenzhen Clever Electronic**, Chinese leader in intelligent Power Distribution Units for datacenters
- **Modulan**, the German specialist in custom cabinets for datacenters
- **Gemset**, a Uninterruptible Power Supply systems specialist based in Dubai
- **Trical**, a local front-runner in electrical and digital enclosures and switchboards for residential and commercial buildings in New Zealand

![7 acquisitions in 2018](image)

**Focus**

Acquisitions help Legrand to expand its accessible market and strengthen its leading positions.

Between 2006 and 2018:

- the value of Legrand’s accessible market more than doubled to over €100 billion;
- the proportion of sales coming from products, which rank first or second on their market rose from around 53% to over 69%.

In the last 10 years, the Group’s acquisitions strategy has enabled it to achieve:

- A number 1 position in audio/video infrastructure and power in the United States with the acquisitions of Milestone and Middle Atlantic Products, which have now been combined within a single division,
- A leading position in smart power distribution units in the United States with the acquisitions of Raritan and Server Technology, and in China with the acquisition of Shenzhen Clever Electronic,
- A leading position in specification-grade lighting solutions for commercial buildings in the United States with the acquisitions of Pinnacle, Finelite, Kenall and OCL, and
- A number-two position in Europe in the assisted living market with the acquisitions of Intervox in France, Neat in Spain, Sweden and Germany, and Tynotec and Jontek in the United Kingdom.
CSR STRATEGY FOR LONG-TERM GROWTH

MAKE OUR COMMITMENT A LEVER OF PROGRESS FOR SOCIETY, PEOPLE AND ENVIRONMENT

A strategy integrated in the business model and aligned with global issues

For many years, the Group’s CSR approach has been an integral part of the Legrand business model and has supported its sustainable, profitable growth. The CSR roadmap, first published in 2007, is a place where the Group’s business activities, strategy and global challenges meet. It represents a commitment by the whole organization: all subsidiaries and entities are stakeholders in the CSR strategy and they implement it globally.

Developed jointly with stakeholders

The CSR strategy, which is formalized in the CSR roadmap, addresses the Group’s main Environmental, Social and Governance (ESG) issues risks and issues, identified partly through a materiality survey carried out among stakeholders (3,700 respondents) and partly through the Group’s risk mapping efforts.

Performance management and oversight

CSR performance is managed and overseen by the CSR Department, which relies on a network of 300 correspondents working in the Group’s subsidiaries. CSR priorities are applied by the Group’s various entities. A specific governance structure is in place and the social responsibility committee is in charge of ensuring consistency between the CSR priorities and Group strategy. There is a quantitative target for each roadmap priority, measured using consolidated indicators on which an independent third-party organization provides a reasoned opinion.

The Group reports on its extra-financial performance every year, and it is one of the criteria determining the compensation of Group executives and decision-makers (CEO, members of the Executive Committee, country managers, Strategic Business Unit managers etc.).
A strategy aligned with international standards

Legrand applies international CSR standards:
- the Universal Declaration of Human Rights
- the Declaration of the International Labour Organization (ILO)
- the GRI (Global Reporting Initiative) and ISO 26000 standards
- the 10 Principles of the United Nations Global Compact
- the United Nations Sustainable Development Goals (SDGs) for 2030
- Legrand is also part of the Science Based Targets initiative (backed by the WWF, the United Nations Global Compact, the World Resources Institute and the Carbon Disclosure Project)

A strategy defined by clear objectives

Multi-year CSR roadmaps set out the priorities and targets for the Group and each subsidiary. They are supplemented by medium-term targets related to the United Nations Sustainable Development Goals.

2007-2010
- 4 years
  - 3 focal areas
  - 8 key challenges

2011-2013
- 3 years
  - 3 focal areas
  - 8 key challenges
  - 28 priorities

2014-2018
- 5 years
  - 4 focal areas
  - 10 key challenges
  - 21 priorities

2019-2021
- 3 years
  - 3 focal areas
  - 10 key challenges
  - 18 priorities

2018 Registration document
Chapter 4
2019-2021 roadmap: issues and priorities

The 2019-2021 CSR roadmap was published in February 2019 and is Legrand’s fourth. It reasserts the Group’s commitment to sustainability in its business activities while being more ambitious than previous roadmaps.

It is based around 10 key challenges and 18 priorities, consistent with the UN’s Sustainable Development Goals (SDGs).

To make the Group more agile and responsive in this area, the 2019-2021 roadmap covers a three-year period instead of four years for the previous roadmap.

Quantitative targets are calculated with respect to end-2018 levels and are to be achieved by the end of 2021.

3 FOCAL AREAS OF THE COMMITMENT TO SUSTAINABILITY

Legrand’s CSR is based on three focal areas\(^{(1)}\) that guide and structure its commitments.

The focal areas break down into 10 key challenges that take priority for both the Group’s stakeholders and the development of its activities:

BUSINESS ECO SYSTEM
Legrand interacts with its whole business ecosystem in an ethical way.

PEOPLE
Legrand commits for respect of all its staff members and stakeholders.

ENVIRONMENT
Legrand intends to limit the Group’s impact on the environment.

3 TARGETS FOR 2030

BUSINESS ECO SYSTEM
INCREASE THE SHARE OF SUSTAINABLE INCOME
Derive 80% of the Group’s sales from sustainable products

PEOPLE
STRENGTHEN THE POSITION OF WOMEN AT LEGRAND
Ensure that at least one third of the Group’s key roles are occupied by women
Reach gender parity in the workforce

ENVIRONMENT
CONTINUE REDUCING THE GROUP’S ENERGY FOOTPRINT
Achieve a 30% reduction in CO\textsubscript{2} emissions directly related to the Group’s activities (target validated by Science Based Targets)
Challenges and priorities for 2021

BUSINESS ECOSYSTEM
All along the value chain, Legrand aims to address the expectations of business stakeholders, suppliers, users, and partners, in order to ensure progress for all in strict compliance with ethical rules.

- PROVIDE SUSTAINABLE SOLUTIONS
  - Protect the health and safety of users
  - Stimulate innovation through partnerships

- ENSURE SUSTAINABLE PURCHASING
  - Raise awareness and provide training about responsible purchasing
  - Measure the progress of suppliers identified as at-risk in CSR terms

- ACT ETHICALLY
  - Continue to train employees and raise their awareness about business ethics
  - Monitor the application of the compliance program

PEOPLE
All over the world, Legrand is committed to ensuring the greatest respect for human rights, diversity, safety, wellbeing, health and talent among its employees and communities.

- RESPECT HUMAN RIGHTS AND COMMUNITIES
  - Comply with the Group’s commitment to human rights
  - Contribute to communities

- PROMOTE HEALTH, SAFETY AND WELL-BEING AT WORK
  - Deploy best practice on health and safety at work
  - Strengthen the commitment of Group employees

- DEVELOP SKILLS
  - Develop the skills and talents of all employees

- PROMOTE EQUAL OPPORTUNITIES AND DIVERSITY
  - Encourage diversity at work

ENVIRONMENT
It is Legrand’s responsibility to limit the environmental impact of its activities, particularly by reducing CO₂ emissions.

- LIMIT GREENHOUSE GAZ EMISSIONS
  - Reduce the Group’s carbon footprint
  - Avoid CO₂ emissions through the Group’s energy efficiency offers

- INNOVATE FOR CIRCULAR ECONOMY
  - Integrate circular economy principles into the development of new products
  - Provide environmental information on the Group’s products
  - Ensure waste recovery

- COMBAT POLLUTION
  - Reduce Volatile Organic Compound (VOC) emissions
**Risk Management for Performance**

> Risk mapping

As the Group and its operating environment changes, risk mapping aims to identify risks and opportunities that are likely to significantly impact the Group’s strategy, operations, financial position or reputation, and to mitigate them.

Risk factors may be external (regulatory changes, cybercrime, technological developments, market trends, climate change, natural catastrophes etc.) or internal (equipment or human failure, fraud, non-compliance with regulations, etc.).

Risk management is an ongoing exercise for which all Group managers are responsible.

A dedicated governance framework is in place, involving:
- a risk manager in charge of overseeing the process,
- a risk committee chaired by the Chief Executive Officer,
- operational risk committees in some departments,
- the Audit Committee, charged with assessing the organization and effectiveness of the mechanism.

> Dedicated governance framework

---

**AUDIT COMMITTEE**

- Group Risk Committee
- Risk mapping
- Group Compliance Committee
- Operational risk management committees

**RISK MANAGEMENT**

**INTERNAL CONTROL**

- Entities self-assessment
- Internal control framework
- Local internal controllers

**INTERNAL AUDIT**

- Annual audit planning
- Group internal auditors
Major risks and opportunities

The risk mapping and materiality analysis work carried out with our stakeholders enables us to identify the risks and opportunities relating to our business model.

GOVERNANCE
CENTRAL
TO ALL ISSUES

Board of Directors: independence, diversity and variety of skills

Legrand is listed on Euronext Paris and is a member of the CAC 40\(^1\).

Its shareholder base is international, and is mainly located in the United States, France, the United Kingdom and various other European countries. Its free float is 96%. Legrand pays a particular attention to its governance, ensuring that it meets the highest standards, not only to comply with legal requirements but to act in the interests of all stakeholders.

The Company abides by the principles of corporate governance for listed companies set out in the Afep-Medef Code of Corporate Governance, which can be consulted on Medef’s website at www.medef.com

The Board of Directors exercises the powers vested in it by law to act in the company’s interest in all circumstances. The Board’s decisions are made within the context of the Group’s sustainable development approach. The Board of Directors therefore contains people with varied and complementary profiles, with strategic, financial and specific skills such as financial communication, CSR, talent management and marketing.

THE MEMBERS OF THE BOARD OF DIRECTORS ARE AS FOLLOWS:

- Gilles SCHNEPP, Chairman of the Board of Directors, French
- Olivier BAZIL, Director, French
- Isabelle BOCCON-GIBOD, Independent Director, French
- Christel BORIES, Independent Director, French
- Angeles GARCIA-POVEDA, Lead independent Director, Spanish
- Edward A. GILHULY, Independent Director, American
- Philippe JEULIN, Director representing employees, French
- Patrick KOLLER, Independent Director, German-French
- Annalisa LOUSTAU-ELIA, Independent Director, Italian
- Eliane ROUYER-CHEVALIER, Independent Director, French

PROPORTION OF INDEPENDENT DIRECTORS* 78%

GENDER BALANCE ON THE BOARD OF DIRECTORS* 56% ♂ 44% ♀

NATIONALITIES REPRESENTED ON THE BOARD OF DIRECTORS 5

* These figures do not include the director representing employees.

(1) On the date this registration document was registered.
Legrand’s governance is consistent with market best practice, particularly through the composition and functioning of its Board and committees and the quality of its interaction with management.

Gilles SCHNEPP (Chairman of the Board of Directors and Member of the Strategy and Social Responsibility Committee)

In 2017 and 2018, Legrand ranked in the top quartile of CAC 40 companies in terms of governance practices according to the “CAC 40 governance” index launched by Euronext in partnership with Vigeo Eiris.

The Executive Committee: a multi-disciplinary and experienced team

The Executive Committee is made up of a close-knit eight-member team that has a varied and complementary range of expertise. All members of the committee understand the core business of the Group and its development issues. This Committee brings together representatives of country management teams and of operational support departments in those countries. On the date the 2018 registration document was filed, the Executive Committee, which included two women, was made up as follows:

INTEGRATED PERFORMANCE

Financial performance

FINANCIAL PERFORMANCE IN 2018

With +4.9% of organic growth in sales in 2018, Legrand outperformed the target that it set itself for the year and continued to expand its positions. The effect of the increased scope of consolidation was also substantial at +7.8%. Excluding the exchange-rate effect, sales were up +13% in 2018 – the highest rise since 2006.

Adjusted operating profit increased +9.7%, to over €1.2bn, and adjusted operating margin before acquisitions reached 20.2% of sales, in line with the 2018 target.

Net profit attributable to the Group was up a strong +23.3%(1) and normalized free cash flow rose +21.5%, to represent 14.9% of sales.

2006-2018 PERFORMANCE

I am convinced that maximizing value creation is driven by results from a combination of financial and extra-financial performance.

Benoit Coquart

SHARE PRICE PERFORMANCE
(between April 6, 2006 and February 28, 2019)

2019 TARGETS
In 2019, the Group will pursue its value-creating strategy of profitable and sustainable growth. Based on macroeconomic forecasts for 2019 that are favorable overall but that have become more uncertain, Legrand has set a target for organic growth in sales of between 0% and +4% in 2019. Additionally, the Group has retained a target for adjusted operating margin before acquisitions (at 2018 scope of consolidation) of between 19.9%\(^{(1)}\) and 20.7%\(^{(1)}\) of sales in 2019. Legrand will also pursue its acquisition strategy and its CSR approach by launching a new roadmap for 2019-2021.

LEGRAND’S MEDIUM-TERM VALUE-CREATING MODEL
Confident in the soundness of its model and its ability to fuel lasting profitable growth, Legrand confirms its medium-term model:

- assuming a buoyant economic backdrop and excluding exchange-rate effects, the Group intends to achieve annual growth in sales and adjusted operating profit of around +10%;
- assuming a lackluster or unfavorable economic backdrop, Legrand will focus on protecting its model, profitability and generation of free cash flow.

Over a full economic cycle, and excluding any major economic slowdown, this model would result in average annual total growth in sales above that of the Group’s reference markets, adjusted operating margin averaging around 20% of sales\(^{(2)}\), normalized free cash flow ranging on average between 13% and 14% of sales\(^{(2)}\), and an attractive dividend.

Legrand also intends to continue rolling out an ambitious approach to CSR, driven by demanding roadmaps.

---

(1) After taking into account an estimated positive impact of around +0.1 points from the application of IFRS 16 from January 1, 2019.
(2) Without major acquisition and taking into account the implementation of IFRS 16 standard.
Extra-financial performance

2014–2018 roadmap results

- **Users**: 106%
- **Society**: 113%
- **Employees**: 131%
- **Environment**: 156%

2014–2018 highlights

- **2014**: creation of the Legrand Foundation
  
  The Legrand Foundation aims to help people live independently, combat exclusion linked with a loss of independence and electricity poverty, and promote education and access to employment in the electrical sector.

- **2015**: Legrand obtains ISO 50001 certification
  
  This certification of Legrand’s Energy Management System covers 24 European sites and shows the Group’s desire to address energy transition issues. Legrand is the first French industrial group to obtain ISO 50001 certification for multiple sites across a broad European platform.

- **2016**: Legrand receives the CSR Trophy in the “Grand Prix de l’AG” shareholder meeting awards
  
  This award recognizes the way in which the Group has made CSR an integral part of its strategy in its Shareholders’ General Meetings, particularly through the publication of its first integrated report.

- **2017**: Legrand signs up to a new partnership with Electriciens sans Frontières and the French foreign affairs ministry
  
  Legrand, which has been a partner of Electriciens sans Frontières since 2007, signed a partnership agreement with the French foreign affairs ministry. Electriciens sans Frontières and nine other companies to help deal with humanitarian emergencies. All of these partners worked together for the first time after the Indonesian earthquake in 2018.

- **2017**: Legrand launches a global employee welfare program
  
  This program, called Serenity On, has three parts: parenthood, health and death and disability cover. The program is set to be rolled out across all Group subsidiaries by 2021.

- **2018**: Legrand ranked ninth in the CAC 40 positivity survey
  
  Legrand was ranked ninth in the first CAC 40 positivity survey, the results of which were published in 2018 by Positive Economy Advocacy. The survey analyzed companies’ ability to put altruism and the interests of future generations at the heart of their priorities.

- **2018**: Legrand becomes the sixth CAC 40 company recognized by the Science Based Targets initiative (SBTi) for its climate commitment
  
  Continuing its efforts to limit its environmental impact, Legrand undertook in 2018 to achieve a 30% reduction in its greenhouse gas emissions by 2030. Its targets were validated by the SBTi.
MAIN ACHIEVEMENTS BY STRAND DURING 2014-2018

OVERALL ACHIEVEMENT RATE OF 122%

USERS

Users of the Legrand Group’s products and their needs are the Group’s main focus and concern. It relies on innovation to offer users sustainable solutions and to drive progress in the electrical sector.

- 4.5 million metric tons of CO₂ emissions avoided through our installed products
- PEPs (Product Environmental Profiles) available for products making up 70% of Group sales
- 45 partnerships initiated over the 5-year period
- training provided to 794,609 customers
- 96% of Group sales covered by a CRM (Customer Relationship Management) tool

"PEPs (Product Environmental Profiles) now cover products making up 70% of Legrand’s sales. This illustrates our eco-design approach, which is based on lifecycle analysis. It gives the Group a crucial advantage in meeting Sustainable Building requirements."

Jean Michel Rossignol, Environmental Manager

COMPANY

Interaction with business partners takes place with the utmost respect for ethical principles, particularly in terms of business practices and purchasing policy.

- Business ethics training provided to 3,370 people.
- Compliance program rolled out across more than 50 countries.
- Support given to 100% of higher-risk suppliers and more than 200 action plans initiated in around 20 countries.
- Working with Electriciens Sans Frontières, improved access to energy provided to 1.2 million people.
- 42 projects supported by the Foundation since 2014.

"The roadmap led to the creation, across more than 25 countries, of a community of trained purchasers, supported by environmental and health and safety specialists applying a common methodology to assess and help suppliers exposed to CSR risks to achieve progress in the field."

Karine Alquier-Caro, Executive VP Purchasing

EMPLOYEES

The Group seeks to ensure respect for human rights all over the world. It is also committed to health and safety for all.

- Respect for human rights assessed for 100% of exposed employees.
- More than 98% of employees covered by occupational risk management plans.
- 94% of employees receiving training each year on average.
- 90% of managers receiving an individual appraisal.

"The adoption of best practice regarding Health and Safety at Work halved the accident frequency rate during the roadmap period."

Philippe Bastard, Group VP Operating Performance

ENVIRONMENT

Environmental protection applies not only to the Group’s sites but also the design of its products. The challenge is to innovate in order to limit the environmental impact of Legrand’s operations. This includes promoting the development of a circular economy.

- 90% of main industrial and logistics sites ISO-14001 certified.
- 26.4% reduction in energy intensity.
- 91% of waste sent for recycling.
- 98% of the Group’s sales compliant with the requirements of the RoHS directive.

Targets for reducing greenhouse gas emissions, aimed at limiting global warming to 2°C, were also approved by the Science Based Targets initiative. Legrand was one of the very first CAC 40 companies to obtain such approval.
